Senator Bernie Sanders  
Via electronic mail

Dear President-Elect Sanders,

Congratulations on winning the overwhelming support of the American people for your candidacy to be President – not for you, but for them.

If the pressures of these past two weeks compel you to say that you give up, it is understandable. As our expert researcher and your fellow whistleblower, Dana Jill Simpson, said at the Columbus, Ohio Broad Street Presbyterian Church last Sunday, “We crucify whistleblowers in this country.”

However, whatever you may say in the face of the ordeal you now suffer, you have been elected to serve us. No one – especially not the king of Saudi Arabia or the highest lord of finance and media in the world – can coronate someone to reign over us.

Exit polls are the international gold standard for measuring the integrity of election results. However, in the United States such exit polls have to be adjusted not once, but twice – before and after being taken – to compensate for the fraudulent manipulation of votes that regularly takes place. In the 2016 Democratic primary in Ohio, the end of day exit poll result showed you winning 10% more than the result recorded on our vulnerable voting machines. However, one must add back the 6% of your vote that was deducted in anticipation of fraud before the poll was taken. Thus, our experts will testify that you won, not only 10% more delegates than recorded, but the majority of the actual votes of Ohioans. And, as Ohio goes, so goes the nation.

We will be filing suit later this week to prove in court the extent of Karl Rove’s skillful manipulation of our votes. But, more importantly in relation to the fast approaching Democratic Convention, we will be presenting to delegates and to all the people the evidence of your victory. We will be doing so over the Website “JusticeServed.org,” coordinated by Summer Rose who also grew up in Brooklyn.

Because of the importance of your election to all the people of the United States and the world, I am publishing this as an open letter. I hope that all of your supporters – Democrats, Republicans and Independents will let their voices be heard over the propaganda of the multi-millionaires and billionaires.

Very truly yours,

/s/ Clifford O. Arnebeck, Jr.
